

QUALITY / ENVIRONMENTAL POLICY

Doc. #	011-QEM
Revision	04/01/2016
Effective:	1/29/2016

QUALITY / ENVIRONMENTAL POLICY

ENA USA will continuously strive to deliver high-value, robust, leading-edge technology products that meet or exceed our customers' expectations.

ENA USA maintains a Quality & Environmental Management System that ensures that the organization is committed to:

Providing quality products and services with processes that consistently meet or exceed our customers' expectations as well as the environmental, legal, and other requirements that will result in our profitable growth;

Protecting the environment and preventing pollution when conducting all aspects of our business, to continually evaluate the company's use of resources, to strive to mitigate climate change, and to protect biodiversity and ecosystems;

Enhancing our quality and environmental performance and continual improvement by establishing and regularly evaluating corporate quality and environmental goals, objectives, and targets;

Regularly reviewing our Quality and Environmental Management System to ensure that we address risks and opportunities in a timely manner as new research and technology become available;

Avoiding waste and excessive cost without jeopardizing quality;

Establishing zero defects as the goal of production;

Providing a safe environment for employees;

Striving to be the supplier of choice for ENA customers;

Meeting customer expectations for on-time delivery.

Approved by:

Kevin Shin, ENA USA Vice President
